DIVISION OF
OIL, GAS & MINES

*Please forward to
Wayne Hedberg
UT State Div. of Oil Gas and Mining*

Dear Lawrence:

Thank you for submitting your Plans of Operation dealing with the Golden Gem and Rosebud Mining Claims. We have reviewed these plans and before a complete analysis can be made additional information is needed.

Related to the Golden Gem claims, please supply more information on the following items.

1. How long will you conduct the operations described in your plan? Will it be indefinite as stated in Item I-E or will it cease at the end of this summer or after the construction of 100 feet more of tunnel as stated in Item IV?
2. What size of dump truck will be used?
3. Under Item V you discuss the burning of slash. Will you be creating any slash through the removal of vegetation?
4. Concerning final reclamation, more information is needed on proposed reclamation of the road into the adit. What will be done with the fill on top of the culvert? Will the culvert be removed? How will the adit and portal be reclaimed?

The following information is needed regarding proposed operations on the Rose Bud Claims.

1. What size of dump truck will be used?
2. Again in Item V you discuss the burning of slash. Will any vegetation be removed during your work which will need to be burned?
3. Concerning final reclamation, what will be done to reclaim the adit and its portal?

Of general information, we consider these plans to be for the exploring or prospecting phase of your operations only. When your operations reach the production phase a new plan of operations can be submitted.

Lawrence Prisby

We look forward to receiving this information so that the evaluation of your plans can be continued. If we can help in any way please feel free to contact myself or Rob Hamilton at the address above or by calling (801) 438-2436.

Sincerely yours,

for BENNETT W. BLACK
District Ranger
